Aluminium Mounted Prints

Aluminium Mounted Prints with a stunning gloss sheen finish is a wonderful way to show off your artistic talent and set your photography ahead of the crowd. Your photo is printed on Fujiflex Crystal Archive printing material; this printing material produces prints that are superbly smooth with a sharp, transparent like super-gloss finish. It is suitable for a wide variety of uses, such as large sized displays, advertisements and photo exhibitions.

It is then mounted on 3mm Alu Dibond for a perfectly flat contemporary look. The Alu dibond is two thin layers of aluminium (each 0.5mm thick) separated by a 2mm polyethylene core. Your print can then be framed or we can attach ready to hang aluminium fixtures (not included in price) so that your print will appear to float on the wall, the finished product will have hi impact in your home or office.
